The undersigned renders this plan and related subject property to only determine compliance with the zoning dimensional requirements. It is not to be relied upon as a land or property line survey for recording, preparing, and deed descriptions. MDJ Incorporated did not set corners. The plan locates approximately the building and offsets based on the assessment of referenced recorded public data and in-situ investigation with an accuracy margin that dismisses encroachment. It is incidental to the proposed construction works on the property.

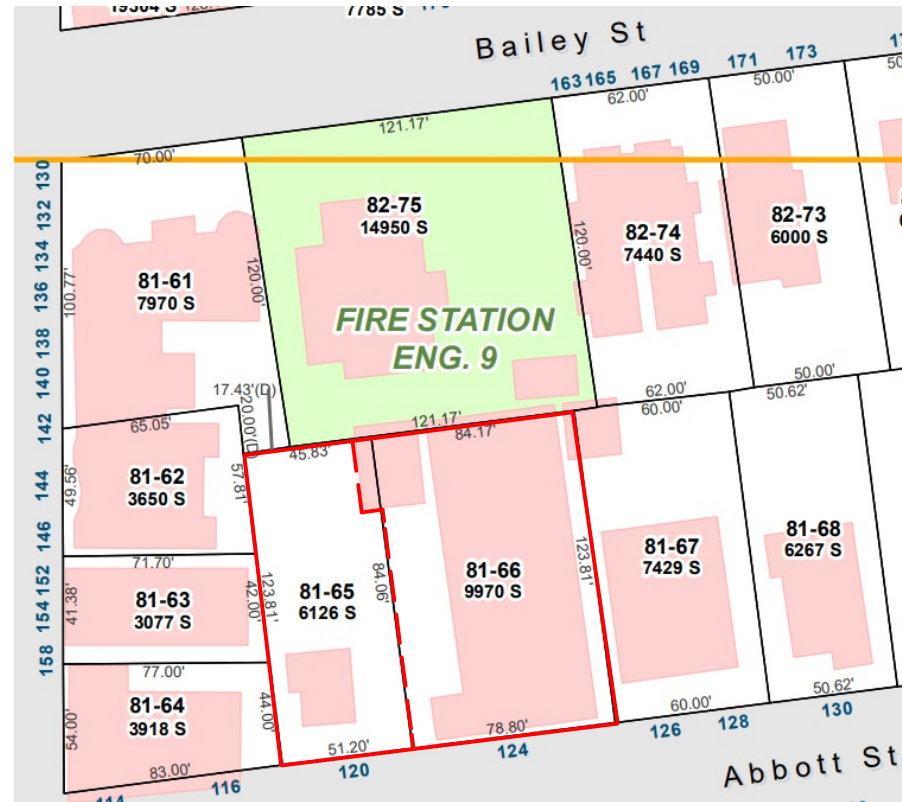

A Registered Land Surveyor shall provide a certified plot plan if further accuracy is required.
